Professional Summary

Full-stack software developer with hands-on experience in Laravel, React, REST APIs, and database-driven systems. Proven ability to design and deliver real-world applications including POS, CRM, Visitor Management, and Tender Management systems. Experienced in both academic and client-based projects, with a strong interest in scalable backend systems and modern web technologies.

Experience

TOTALOFFTEC **Dhaka, Bangladesh**
Industrial Trainee (Industrial Training) *5 Apr 2023 – 13 May 2023*

- Developed multiple functional web and mobile applications used for internal demonstrations. Worked on API development and automation tools for testing.
- Built RESTful APIs and assisted in automation testing workflows.
- Contributed to full-stack development using Laravel and React Native.
- Designed UI mockups and promotional materials using Figma and Canva.

Academic Qualification

2023: **B.Sc. in Computer Science and Engineering**, Northern University Bangladesh (NUB) — CGPA: 3.52 / 4.00

2018: **A Levels**, Private Candidate — GPA: 1.50 / 5.00

2016: **O Levels**, Oxford International School — GPA: 3.50 / 5.00

Projects

1: **School Project – Tegachia Secondary School**
Developed a web-based school management system to dynamically manage data on backend for example notices, galleries, total stuffs & teachers etc.

2: **BidTrack – Tender Management Platform**
A tender-based bidding system designed for managing bidders, bid submissions, and results transparently and efficiently. Built with Laravel and MySQL.

3: **VisiQ – Visitor Management System**
Designed and developed a Laravel-based visitor management system featuring check-in/check-out, visitor logs, reporting, and security workflow optimization.

4: **NexaTrack – CRM Software**
Designed and implemented a Customer Relationship Management (CRM) software to track clients, manage sales pipelines, and streamline business communication.

5: **EduVoyage – University Consulting Software (In Progress)**
Currently developing a university consultancy management platform for student guidance, university matching, and document management automation.

6: ProsharPOS (Point of Sale System)
Designed and developed a Point of Sale system enabling fast billing, smart inventory management, and real-time business insights for retail operations.

7: BD Karber – E-commerce Website (Academic Team Project)
Developed an e-commerce platform for online product sales and management under the supervision of Md.

Mushfiqur Rahman Fakir, Lecturer, Department of CSE, NUB.
Contact: +880 1704817049

Client Projects

1: NineteenAlpha
Designed and developed a website for a Dhaka-based defense enterprise providing military equipment and training solutions.
2: XpressionGlobal
Website development for a government-approved defense contractor supplying firearms, tactical gear, and advanced military technology
3: ZNZ Handels GmbH
Built a responsive corporate website using **HTML5 and CSS3**, ensuring clean UI design, mobile responsiveness, and professional presentation of business information.
4. DFCH Patient Management Software
Developed a comprehensive system to monitor patient registration, manage records, and generate detailed reports for Dr. Fazlul Haque Colorectal Hospital, providing a clear dashboard for quick patient overview.
5. Admin Panel Software for Portfolio (Asif Almas Hoque)
Built a custom admin panel for managing portfolio content and data analytics, providing an intuitive interface and efficient management tools. This project supported the consulting work for DFCH Hospital.
